AREAS OF EXPERTISE

Community-Based Participatory Research and Evaluation
Health Disparities Research
Implementation Science
Impaired Driving Intervention and Environmental Strategies Evaluation
Mental Health and Mental Health Services Research
Mixed Methods Research and Evaluation
Needs Assessment and Strategic Planning
Program Evaluation
Qualitative Research Methodologies
Randomized Control Trials
State and Community Capacity-building Research
Substance Abuse Intervention and Environmental Strategies Evaluation
Training and Technical Assistance

Our interdisciplinary research team has a strong history of engagement with rural, Latinx, Native American, and sexual and gender minority communities. The PIRE-Southwest center is focused on conducting high quality research to identify and eliminate health disparities through the advancement of policies and programs that change lives. Our scientists collaborate with universities, federal, state and local community organizations, community coalitions, health educators, and health practitioners to study, develop, test, and disseminate innovative and evidence-based ideas, programs, and initiatives that enhance the quality of life for individuals and their communities.

PIRE SOUTHWEST

PACIFIC INSTITUTE FOR RESEARCH AND EVALUATION

851 University Blvd SE, Suite 101
Albuquerque, NM 87106-4341
